

ETBD EXPO BRAND GUIDELINES

In order to keep everything visually consistent when creating content for the Expo, please follow these general guidelines! We've put together a set of colors, typefaces, and textures for you to reference.

Color: See color swatches on slide 4! The two reds are the primary colors, while the dark teal should be used more sparingly as an accent. Cream and charcoal provide light and dark neutrals, though using white is also acceptable. Remember to use CMYK for print and RGB for digital!

Type: See typefaces on slide 5! Our main typeface is Barlow SemiCondensed. Use **black** for main headings, **bold** or **semi-bold** for subheadings, and regular for body copy. Using ALL CAPS for main headings is encouraged! We've also added a playful typeface to be used as an accent. Both typefaces are defaults on Canva and can easily be accessed through Adobe Fonts or a free download. Barlow: [Adobe](#) [Google](#)

Texture/Design: Use slide 6 for design inspiration! Focus on grain textures with a spray gradient effect, make textures feel organic, slightly imperfect, and fade from high-density color to transparency. Try to avoid smooth digital gradients, use visible grain or patterns. Take advantage of large point sizes and the interaction between heavy and light font weights!
